**COMPANY NAME: OXYGEN INTERACTIVE MARKETING** 

**CLIENT COMPANY NAME: Cadbury** 

**ENTRY:** Cadbury Marvellous Creations Sales Launch Kit

The main objective of the promotion was to accompany the launch of Cadbury's new Marvellous Creations range of bars and blocks. Oxygen Marketing was asked to develop a sales tool that would 'make chocolate fun again.' They were presented with a fairly vague brief outlining the need for a premium gift and packaging. Oxygen Marketing decided that rather than provide a gift housed in packaging, the packaging itself would be the gift. They conceptualized and developed a circus-themed sales kit based on a jewellery box with hidden, unexpected drawers which fit perfectly with the key brand message of 'unexpectedly magical.' It appeared as a normal box from the outside, but once opened, it revealed a circus tent, complete with pop-up ringmaster. Various hidden drawers contained Marvellous Creations chocolate bars and blocks. The kits were extremely visually appealing and very high quality. They helped gain excitement and increase sales from both the field team and retailers, and added unexpected value by distributing all of the boxes nationwide in two days.

# WHAT THE CLIENT SAID

• "The truly unique product that Oxygen delivered for our Marvellous Creations promotion was spot-on in fulfilling our brief. A huge thanks to the Oxygen team for delivering this product and managing the entire process from conception right up to delivery into store."

- Well executed and beautifully designed, 100% creative from the promotional company

**COMPANY NAME:** PROMOTION MATTERS LTD **CLIENT COMPANY NAME:** The Pallet Company Ltd

**ENTRY:** Mini Pallet

**(** 

The Pallet Company provided Promotion Matters with a brief to create an eye catching promotional item that would perfectly represent their product (pallets) and would be retained by the client's decision makers. The item needed to instantly act as a sales tool and a reminder to prospective clients of their company. The target market was the kiwifruit industry. Promotion Matters worked to design something which would stay on their desks with a unique recognition factor. The puzzle was what could say 'pallets' and still be useful and interesting on a desk? The solution was a scale replica of the wooden pallets used in the horticultural industry as a set of coasters. They created the pallet using specific pallet design software and created a true 'mini' copy of what the sales force were presenting. Promotion Matters also designed a custom printed die cut envelope to fit the coasters and the associated sales material. The mini pallets have become a permanent feature with the sales team and the retention value from their clients are huge. The promotion has created a substantial increase in business, despite a highly volatile market. It has been so successful with the kiwifruit industry that they have now rolled it out to the apple industry which has led to immediate trial orders of the pallets.

# WHAT THE CLIENT SAID

 "This promotion has certainly exceeded all expectation and the service, professionalism and work that Promotion Matters has put into getting this off the ground has been exceptional."

### WHAT THE JUDGES SAID

**COMPANY NAME:** WOMPRO INTERNATIONAL PTY LTD **CLIENT COMPANY NAME:** SIDS and Kids National **ENTRY:** SIDS & Kids Red Nose Day

SIDS and Kids holds its Red Nose Day campaign for the month of June every year, aiming to raise as much money as possible through the sale of quality merchandise. They receive no government funding and are reliant on the campaign to raise revenue to further research and eradicate SIDS. Wompro International designed and developed the entire range of creative products. The range had to reinvent the previous successful ranges so that much of the same target market would be re-engaged. They introduced a new character and built the campaign around it. They used their sophisticated, online survey software and focus groups to ensure a range driven by consumer choice in a market that is saturated with fundraising fatigue. To accommodate various demographics, key price-points were taken into consideration, making sure there was something for everyone. Wompro International supplied and managed all bar-coding, packaging, and safety requirements for each product and donated all design time. The campaign exceeded revenue targets and successfully introduced new revenue raising items. Online sales increased and new retail partners were secured. Overall, the SIDS and Kids Red Nose Day campaign was a wonderful success.

Racing Victoria approached Arid Zone to create a memorable merchandise range which would cut through the large over-load of promotional clothing presented during the Victorian Spring Racing Carnival. **CLIENT COMPANY NAME: Venus Gowns NZ Ltd** 

**ENTRY:** Venus Mugs

In an industry where wholesalers rarely acknowledge their retailers, Venus Gowns wanted a promotional product that would be a gift for Venus retailers while keeping the Venus brand present in their minds. Design A Gift's solution was a cone shaped mug to compliment the tapered design of the featured gown in the image. However, this presented a new challenge. Full colour printing on the cone shaped mug required precise manipulation of the artwork to have it wrap around the mug while maintaining the integrity of the vertical perspectives in the image. On top of the technical difficulty of the piece, Design A Gift used contrasting colours to enhance the gown. All of the Venus brand information was effectively present on the mug, but subtly done so as not to detract from the image. While the mugs were originally intended as a gift and simple reminder of the brand, three of the Venus retailers were inspired to purchase gowns featured on the mugs, sighting their thank you acknowledgement as the inspiration.

The overall program objective was to draw new contacts to RAMS tradeshow booths. Corporate Express created not only the custom designed, branded ram shaped slippers but the concept of completely filling a RAMS branded car with the slippers to encourage visitors to guess the number of slippers in the car. Winners were announced at the end of the tradeshow, ensuring that the RAMS stand was the last one the attendees visited before leaving the show. All attendees at the draw received a pair of slippers, and the entry form served as an excellent way to create a database. **COMPANY NAME: WOMPRO INTERNATIONAL PTY LTD** 

**Company Name Withheld ENTRY:** 42 Below Lava Lamp

Wompro International was assigned the task of creating a simple but iconic bar point of sale item to promote the 42 Below vodka trade brand at trade and consumer events. It needed to be easily transportable, visually compelling, brand aligned, and stand out in a typically dark environment (ie. bars). While the initial brief was relatively vague and suggested a more traditional promotional product, the Wompro International product and design team suggested a new concept using the iconic and recognizable shape of the actual 42 Below bottle to make a very uniquely branded lava lamp. This piece fit all requirements, from safety testing standards to a small carbon footprint (Wompro International made the lamps from actual discarded bottles, hence recycling them for use), and came in under budget all while surpassing all client expectations. The feedback received was overwhelming and the lamps have become very well-travelled art pieces. They have drawn attention to the product and created a talking point at events and in bars. There have been numerous requests to purchase the item. This retro piece remains memorable and relevant in the market place today.
